بسم الله الرحمن الرحيم

الحمد لله الذى هدانا لهذا و ما كنا لنهتدى لولا ان هدانا الله

Every new Issue of Islamic Sciences is completing a new milestone. This time Islamic Sciences has switched its frequency from Annual to Biannual to accommodate more quality research papers and to provide maximum opportunities to the authors who are contributing academically to the field of Islam. By the grace and blessings of Almighty Allah, you are going through the Volume 4, Issue 1 of Islamic Sciences.

Since its launch, the whole team of Islamic Sciences is working efficiently and deliberately to disseminate the real teachings, challenges and issues of Islam through research and reviews. This era of science and technology is also exploring new dimensions of research. Even the COVID-19 pandemic has diverted many researchers' attention to find its solution from the religious end including the concept of faith and belief of the followers. If we talk about the victims and death occurrences involving COVID-19 by religious group, we see a very nominal rate in Muslims.

May Almighty Allah save our world from this pandemic and grant patience to all those who have lost their beloved during this pandemic. In the end I would like to thank my whole team specially those members of Islamic Sciences who worked for the journal during their suffering from the virus. May Almighty Allah grant us courage and stability in following our vision of '*change through research*'.

Sincerely,

Dr. Gulnaz Naeem
